

MC GROUP

MC 014/2014

20 October 2014

Subject: Clarification of the information in the newspaper

Attention: President of the Stock Exchange of Thailand

According to the news published in newspaper dated 18-19 October 2014, MC GROUP Public Company Limited would like to clarify that the electrical wire robbery incidence at Mc Jeans Manufacturing Co.,Ltd., a subsidiary, on 17 October 2014 caused a damage to electrical equipment and electric transformers. This caused the factory stopped working for 1 day with an approximately damage cost of 2.5 Million Baht.

Currently, the company has already fixed the electrical damage and re-operated since 18 October 2014. However, The company has the All-Risk Insurance policy and now we are working with the Insurance company to proceed for the claims payment.

However, the above damage caused when comparing to the total asset of 4.5 Billion Baht is considered very least substantial.

Please be informed accordingly.

Sincerely yours,

(Mr. Virach Seripanu)

Director
